**Please RSVP by Friday, December 9, 2016 to  
Marian Wolz, [wolz@cvregion.com](mailto:wolz@cvregion.com) • (802) 229 0389**

The Central Vermont Regional Planning Commission (CVRPC) will be hosting the training on the energy planning standards together with the Department of Public Service. Municipalities interested in gaining substantial deference are encouraged to attend. The training is open to the public.

The Department of Public Service released the energy planning determination standards and recommendations called for in Act 174, the Energy Development Improvement Act. These standards will be used by the Department and Regional Planning Commissions to make determinations as to whether regional and municipal plans are consistent with state energy policy. Plans that receive an affirmative determination will receive substantial deference for land conservation measures and specific policies when the Public Service Board considers orderly development in its review of siting applications.
