## **GMT Cancels Scheduled In-person Public Hearings**

**Burlington, VT--** In light of recent COVID-19 developments, as a precaution, GMT has decided to cancel all of our scheduled in-person public hearings (please see list below). Instead we will record a video the presentation for use on our website, social media, and for public access stations to broadcast. Passengers and stakeholders will be able to offer comments for a period of time via email or by phone.

As COVID-19 continues to affect the state of Vermont, GMT feels this is the most responsible decision for the safety of the community and GMT staff. Giving a longer period of time for passengers and stakeholders to review documents, we hope, will result in more meaningful public feedback.

Public Hearings to be **cancelled**:
