--	---

MEETING PURPOSE: Review the narrative of the Transportation Plan. The approach to review will be to prioritize the information that is absolutely essential for the narrative, in case it must be reduced later in the Regional Plan process.

SUMMARY:

The meeting commenced at 3:45 pm.

Committee members in attendance made suggestions for streamlining the draft narrative, including moving some information, graphics and maps to an appendix. Suggestions also included reducing the amount of description of the program offerings of partner organizations and directing readers to where they can find things like bus schedules, rather than including them directly in the text.

The meeting concluded at 5 pm

Wrap-up and Next Steps: The Committee will review the Draft Safe & Affordable Housing Element at the next meeting, scheduled for **Tuesday, Oct. 20 at 3:30 pm.**
