- ☐ Thursday, June 27, 2019 - VTTrans Dill Building, 1078 Airport Road, Berlin, VT
- ☐ Tuesday, July 16, 2019 - VTTrans Mendon Office, 61 Valley View (84 US Route 4), Mendon, VT

Instructor

Todd Eaton - VT Local Roads Circuit Rider

Todd has nearly 20 years of experience in various disciplines of construction including 9+ years in heavy highway construction supervision, inspection, and design of maintenance projects and traffic safety plans. Safety inspection and compliance has always been a focus area throughout Todd's career. Todd holds several professional certifications including Northeast Transportation Technician Certification Program (NETTCP), American Traffic Safety Services Association (ATSSA), and Occupational Safety and Health Administration (OSHA).

About

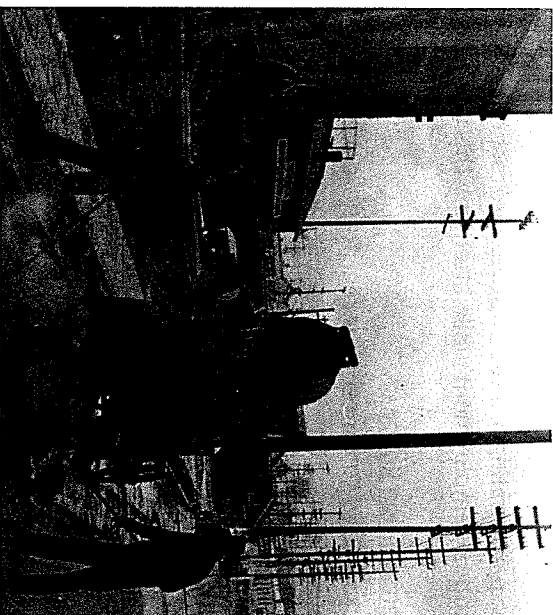

Paving projects account for a significant portion of town highway maintenance projects. There is a great necessity to ensure high product quality is produced in paving operations.

This 4 hour workshop is intended to empower town highway employees who are tasked with overseeing paving projects to observe and ensure high quality in paving operations.

With the skills discussed in this workshop, the learner will be capable and prepared to be successful in estimating, overseeing and ensuring their town is getting the best product for the agreed upon price.

Agenda

- Material Components
- Temperature Ranges
- Good Preparation
- Placement and Mix Delivery
- Joint Construction
- Finished Product

Audience

This training is intended specifically for those municipal and state roadcrew employees who are interested in increasing their effectiveness as a lead crewman, foreman, or supervisor of paving operations.

Intended Training Method

Guided learning utilizing group discussion of concepts and application followed by instructor guided practice.
