12. PROGRESS REPORTS

- a) HAZCHEM FY 19 GRANT- PROJECT CLOSE OUT 12/31/19**- Vinson provided information on the progress report table. The “Impact Evaluation” column provides information on whether contract goals were met or not met. This is the final progress report for FY19. Johnson asked Vinson to check with Bonnie Waninger on whether Facility Plan Presentations count as Table Top Exercise.
- b) HAZCHEM FY 20 GRANT**- Vinson provided information on the progress report tables.

13. HAZCHEM FY21 APPLICATIONS AND FUNDING

- a) HazChem Base Application**- Vinson provided information on the administrative tasks (coordinate and organize meetings, prepare agenda and meeting packets) under the base, \$4,000 application.
- b) Hazchem Additional Application**- This is additional funding to support LEPC5. Tasks listed in the table is basically the same as last year, Tier 2 workshop and April Job Fair have been removed (since they are under FY20 contract).

Vinson asked the group if LEPC wants to hold a table top exercise (TTX) in 2021. Johnson said if Facility Response Plan Presentations can be classified as a TTX, then no. If not, we will proceed to ask for TTX. Harris said it’s important to think about what coordination would be needed between LEPC/CVRPC and VEM to plan a TTX, her schedule is already booked through fall 2020.

Vinson asked the group if LEPC wants to commit to the Facility Review Subcommittee. Johnson said it can be removed from the application.

- c) Barre City Funds- Vinson provided information on the three options for using remaining Barre City Funds. Option 1 is to use funds for CVRPC to provide additional meeting support. Option 2 is to use funds for CVRPC to attend and participate in SEC/LEPC liaison meetings and other meetings hosted for LEPCs, and bring the LEPC ongoing information about how the consolidation discussion involves. Option 3 is to use funds for CVRPC to organize up to 2 meetings with the Annual Response Plan consultant.

Johnson asked the group for their preferences on how to use Barre City funds. She noted that maybe some tasks from each option could be combined.

- Beth Burgess: I prefer Option 1 or Option 2. Katina made point that we could combine.
- Lisa Hulberg: I prefer Option 1 or Option 3, because the LEPC Annual Response Plan is part of LEPC federal requirements.
- Stephen Bailey: I prefer Option 1 or Option 3.
- Bruce Richardson: I prefer Option 1 or Option 2, depending on whether the Annual Response Plan format has been approved by SERC yet. Vinson will ask SERC is this plan format has been approved.
- Jonathan Scott: I prefer Option 1 or Option 2, also depends on whether the Annual Response Plan format has been approved by the SERC.
- Sarah Nolin: I think whatever option we pick should be where we need help the most. Any option should include helping Katina with LEPC meetings (Option 1).
- Beth Burgess: We should also think about work needed to do TTX.
- Katina Johnson: We should put hours in the Additional Application for CVRPC to attend two informational meetings for the LEPC transition. We should use Barre City funds for additional meeting support (Option 1) and Annual Response Plan (Option 3).

Bruce Richardson made motion to approve scope of work for FY21 HazChem Base Application, Additional Application (removing Facility Review subcommittee task and removing TTX contingent on whether it Facility Response Plan presentations can be classified as TTX, adding additional hours for CVRPC to attend 2 informational meetings on the LEPC transition), and Barre City Funds (using funds for additional meeting support and Annual Response Plan). Lisa Hulberg seconded. Motion carried.
