b) Town of Northfield – plan approval, planning process confirmation, energy compliance certificate

Hill-Eubanks advised information was to have been presented by Bill Arrand, who was not currently present. She requested Clare Rock provide the introduction. She also noted a revised resolution was emailed to members today as a revision to the packet.

Town of Fayston

Rock advised the Municipal Plan Review Committee (MPRC) recommended approval of the Municipal Plan and confirmation of the Town's planning process. She noted the Fayston Plan did not include the enhanced energy component. The Selectboard adopted the Plan subsequent to the MPRC meeting; and there has been confirmation that the plan has been approved by the Fayston Select Board and that there was little discussion at the Select Board hearing. It was noted that one comment raised was the consideration of how COVID has impacted the municipal planning process and consideration of whether that should be incorporated into the review process. There was limited discussion as that is not a plan component or requirement. Rock wanted to make note of that comment to the Board. She reiterated that the MPRC voted to recommend approval by the CVRPC Board.

Bill Arrand joined the meeting.

Hill-Eubanks opened the floor to questions. G. Clain asked for confirmation that the meeting was now the Executive Committee meeting since there was not a quorum of the Board. This was confirmed. He also brought attention to one area of the Fayston Plan – Page 114 where the 1st sentence refers to "see Section 8.5.5", which doesn't appear to exist. This appears to be a typo, not a section that is missing. It should be cited as Section 8.6.

D'Amico asked if the plan addresses the energy section that was noted in Barre Town's Plan and discussed at our last meeting. Rock confirmed Fayston was not asking for a determination of energy compliance.

Hill-Eubanks read the proposed motion:

"Resolved that the Central Vermont Regional Planning Commission:

- 1) approves the Fayston, Vermont 2020 Town Plan, adopted September 22 2020, and
- 2) consulted with and confirms the planning process of the Town of Fayston."

G. D'Amico so moved; J. Potter seconded. Motion carried.

Town of Northfield

At Hill-Eubanks' request, Dara Torre assumed Chair of the meeting. B. Arrand said the MPRC reviewed the Town Plan, Planning Process and Energy Component and that the MPRC approved all three.

Hill-Eubanks advised that the Northfield Planning Commission has been working on the plan for over two years and had a lot of input from the public including hearings, forums, and surveys. The Town Planning Commission believes it reflects what the Town of Northfield wanted in the Town Plan.

Clain commented that on Page 34 of Northfield's Town Plan under Public Utilities, 2nd paragraph has an

issue which might be a typo or punctuation. It reads "...but as of 2018 it did not generate any power and contracted with Green Mountain Power to provide all maintenance services..." Clain noted GMP was contracted before 2018. Hill-Eubanks clarified that it was oddly worded as it is meant to state as of 2018, they knew that GMT was still not generating power as that was the most current year they had data. Clain advised gratitude for town officials who work on these plans and put in the time to create them. Torre inquired if there were additional questions or comments. She directed the members to the resolution on page 13 of the packet and read the following as a proposed motion:

"Resolved that the Central Vermont Regional Planning Commission:

- 3) approves the Northfield Town Plan 2020-2028, adopted August 11, 2020, and
- 4) consulted with and confirms the planning process of the Town of Northfield."

J. Potter moved to approve the Northfield Town Plan, confirm the Town's planning process, and authorize the Chair to sign the resolution; M. Gray seconded. Motion carried.

Torre inquired if Hill-Eubanks had anything to share about the energy element. Hill-Eubanks shared there had been a comment that the Plan should set an example by supporting or encouraging new energy generation. She advised that they did have something that addressed that in the Plan in one of the implementation actions which was to investigate capturing methane at the wastewater treatment plant to use to generate energy. She also noted Northfield wanted to protect their ridgelines above 1,800 feet from larger renewable energy facilities, and therefore discouraged development above 1,800 feet.

Potter raised a question regarding the proposed resolution item #6, which states "Board of Commissioners....... voted to approve the determination.....". Given that the that the Executive Committee was authorized to do this in lieu of Commissioners, how does this language change? She also referenced a highlight noting number of members of public in attendance at the MPRC meeting. Rock confirmed that the following were present at the MPRC Meeting - Municipal Representatives: Laura Hill Eubanks, Northfield Planning Commission Chair, Doug Day, Fayston Planning Commission Chair, Carol Chamberlain, Fayston Planning Commission. Waninger confirmed the resolution would need to have this information updated. Item #6 would be changed to reflect a new item that discusses the Board authorizing the Executive Committee to make a decision in absence of a Board quorum. The original Item #6 would become #7, which would replace Board of Commissioners with Executive Committee on behalf of Board of Commissioners.

J. Potter moved to approve the determination of energy compliance for Northfield and approve the resolution as edited; M. Gray seconded. Motion carried.

- Adjournment
- 40 M. Gray moved to adjourn at 7:03 pm; D. Torre seconded. Motion carried.

42 Respectfully submitted,

44 Nancy Chartrand, Office Manager
