Bylaws Work Group Meeting Minutes

- Item A.1 & 3.: Clain asked whether the Board have to amend a committee's Rules of Procedure prior to giving a committee a new duty? Lotspeich suggested this actually meant that some committees have the authority to recommend to the Board and others to act on behalf of the Board. Waninger recommended adding "and other duties as assigned by the Board" as a duty for all committee Rules of Procedure to address this.
- Clain expressed concerns about the amount of power the Executive Committee has given the Executive Committee. Lotspeich inquired as to whether there were certain general activities in the Committee's ROPs that Clain thought were inappropriate. He shared that the Executive Committee was set up to focus on day-to-day operations. Gray said the Executive Committee was set up for the business aspects and staffing for the Commission while the Board is focused on the regional planning commission as a regional entity/regional issues for planning. Waninger shared that the Board/Executive Committee/Committee duties relationship varies among RPCs. The Board decides what authority its Executive Committee has, and those decisions are often based in the culture of the region. Clain recommended that the Board accept the Committee Reports or minutes of the Executive Committee. Lotspeich said the Reports act as informational items for the Board.

The Work Group requested staff develop ideas for how the Board might affirm its responsibility for financial activities if the Executive Committee retains workplan, budget, audit, and financial statement operational oversight.
