Vermont's Designation Programs are turning 25.

It's time to evaluate them and imagine the next 25 years, and your input matters.

- How are they working now for municipalities, people, businesses, and the state?
- What would make them easier to access and use?
- How can they bring even greater benefits like village revitalization and investments, climate resilience, housing and Smart Growth, equity and opportunity, livability and healthy community design?

Designation 2050 wants to hear from stakeholders all across Vermont about what's working, what could be improved, and how these programs could be reimaged.

Final survey deadline: September 15.
