ATTACHMENT A SPECIFICATIONS OF WORK TO BE PERFORMED

The RPC will perform its statutory responsibilities as required by 24 V.S.A. Chapter 117, Subchapter 3. This Grant Agreement, including the activities outlined in Appendix I, may constitute only a subset of the overall statutory obligations of the RPC.

1. State's Goal: The RPC will help build the foundation for orderly growth. RPCs have statutory and contractual obligations in transportation, brownfields, energy, emergency management, economic development, natural resources, and local and regional land use planning.

2. Grant Oversight:

- 2A.** Funds are provided to the RPC to support the provision of services and completion of products specifically described in this Grant Agreement's Appendix I and must be used in a manner that conforms to all relevant State standards. The services performed under this Grant shall be monitored by State assigned staff. Reporting requirements will include performance expectations and deliverables, as stated in Appendix I. Any changes to time, scope, and/or resources shall be discussed in advance and the impacts to the work to be performed will be determined and reduced to writing by the State and the RPC in the form of a Grant Agreement amendment. If any Deliverables are not provided to the Agency by the RPC in a timely manner, the Agency may withhold progress payments or institute the process established in Section 4, below.
- 2B.** DHCD will review and comment on all regional plan updates. If any regional plan is adopted after DHCD has found and communicated to the RPC that it does not comply with the intent of statute, DHCD will file the findings with the documentation for the Grant Agreement in addition to sending them to the Regional Commission Chair. The RPC may request a peer review of the non-compliance identified by DHCD. The peers may issue findings and submit them to DHCD to be filed along with DHCD's findings.

3. RPC Deliverables:

- 3A.** The RPC **will deliver the prior contract year-end annual report to the State no later than July 31, 2023.** The report will conform to any required format distributed by the Agency and will address services provided and activities completed pursuant to prior year Scope of Work.
- 3B.** The RPC **will deliver a final audit report and financial statements, including any attachments, letters or responses regarding any findings, to the Agency no later than six months after the end of the RPC's fiscal year.** If applicable, the RPC must provide documentation to DHCD to demonstrate that any findings have been or will be addressed.

Upon receipt of each Report submission, the State, in order to fully assess the effectiveness of this Grant Agreement, may require additional information from the RPC, including anticipated and actual expenses that will include a summary of the RPC's operating budget that identifies all sources of

funding by source (federal, state (by agency), municipal, other) and type (grants, contracts, dues, other).

4. Default/Recapture of Funds/Termination of Grant Agreement: Failure by the RPC to fulfill in a timely and proper manner its obligations under, or comply with, any of the terms or conditions of this grant agreement shall constitute a Default. The State shall notify the RPC of the Default, may establish a period not to exceed thirty (30) calendar days to correct such Default, and may cease payment of any portion of Grant funds, until the Default is cured. If the RPC does not cure the Default at the completion of the correction period, then State: (1) may require RPC to immediately reimburse to State any portions of Funds that were not expended or were expended in a manner inconsistent with, or for purposes other than those specifically described in, the terms and conditions of this agreement; or, in the alternative, may forever retain any portion of Funds, equal to the amount of reimbursement that would have otherwise been required by operation of the preceding clause; and/or (2) may immediately terminate this agreement by giving written notice to the RPC, specifying the effective date thereof.

5. Copyright: Upon full payment by the State, all products of the RPC's work funded by the State, including but not limited to outlines, reports, charts, sketches, drawings, artwork, plans, photographs, specifications, estimates, computer programs, or similar documents, becomes the joint property of the State of Vermont and the RPC. The RPC will exercise due care in creating or selecting material for publication to ensure that such material does not violate the copyright, trademark, or similar rights of others. The RPC shall not use any copyright protected material in the performance of the work under this agreement that would require the payment of any fee for present or future use of the same by the State. To the extent the RPC uses copyrighted materials in performance of work under this Grant Agreement, the RPC shall document and provide the State with the precise terms of the licensed use granted to the State by the owner of the copyright for future use of the copyrighted material.

**ATTACHMENT B
PAYMENT PROVISIONS**

Payment of Funds: The Funds identified in 24 V.S.A. § 4306 and Act 78 (H.494 2023 Session) (Appropriations), Sections D.100(a)(3)(A), shall be payable in four equal advance payments, with five percent (5%) withheld until completion as further described in paragraphs below. To receive payment, the RPC shall submit invoices as described below, along with required insurance documentation and deliverables.

Reimbursement of invoices not identifying these amounts will not be processed until a corrected invoice is received. All invoices must be emailed to jennifer.lavoie@vermont.gov for processing.

Payment #1, equal to funding for the **first quarter** of this twelve-month Grant, will be paid to the RPC **on or about July 15, 2023**, provided that this agreement has been duly executed and if applicable that the RPC has demonstrated that any findings from the RPC's most recent audit have been or will be addressed.

2.Final Payment: Final payment, equal to five percent (5%) of the Regional Planning Fund Allocation, will be held pending the RPC's completion of the work required under this Grant Agreement. The State will evaluate performance based on the RPC's completion of required work, reporting, and quality of data supplied. Upon a determination by the Commissioner that the RPC has adequately completed the required work, provision of data, and reporting, and no area of performance is rated as "Needs Improvement" in the Targets of Appendix I's Workplan and Reporting Form, the State will release the final payment upon receipt from the RPC of an acceptable invoice for the total final payment amount.

However, if the RPC has tasks in "Needs Improvement," it may be subject to the 5% being held permanently or until the task is completed. The DHCD Commissioner may meet with the RPC to discuss the areas in need of improvement and consider plans or approaches the RPC may employ to improve performance. The DHCD Commissioner will review any extenuating circumstances on a case-by-case basis.

Table Instructions: Referring to last year's submission, list all municipalities in the region, identify if the municipality has an adopted plan. If yes, identify the date of expiration. List the date(s) of any prior consultation. Identify if consultation will be scheduled and occur for this fiscal year (FY24). Report on date of second consultation at mid-term and final and document any relevant notes.

Suggestion: DHCD encourages that consultation be done within the municipality using a consistent regional approach that takes stock of implementation accomplishments, reveals local needs and challenges, and clearly identifies issues of statutory compliance early in the process. Such a consultation could be done in combination with a locally held training on "land-use essentials" to support the ongoing professional development of the region's rotating volunteer planners.

ATTACHMENT A SCOPE OF WORK TO BE PERFORMED

REGIONAL PLANNING COMMISSIONS EMERGENCY MANAGEMENT PERFORMANCE GRANT (EMPG) – FEDERAL FISCAL YEAR 2023 SCOPE OF WORK FOR OCTOBER 1, 2023 – SEPTEMBER 30, 2024

The purpose of this document is to serve as guidance to assist Regional Planning Commissions (RPCs) in drafting applications for EMPG 2023 funding. Detailed descriptions of the work elements and associated tasks identified below, and staff hours will be required for applications to be considered complete. **Incomplete applications or applications requiring additional information will be returned for clarification.**

Each RPC applying under EMPG 2023 will be required to perform the work elements outlined below. Items listed under “Each RPC shall” must be referenced in all applications, while items listed under “Each RPC may” are allowable in applications, but not required. To receive reimbursement of the tasks accomplished, RPCs must follow the **Reporting Requirements** outlined under each work element.

In the application, RPCs should list which core capability gaps they are working on improving and/or sustaining for each task in their Scope of Work, based on the 2022 Vermont Threat and Hazard Identification Risk Assessment and State Preparedness Report (THIRA/SPR) gaps. The following Core Capabilities were rated as high or medium priority in the 2022 SPR. For further information on these areas, core capabilities and the THIRA/SPR process, see the [FEMA Comprehensive Preparedness Guide 201](#), and the [FEMA website for Core Capability definitions](#). See the identified core capability gaps below:

- Planning
- Public Information and Warning
- Operational Coordination
- Physical Protective Measures
- Cybersecurity
- Supply Chain Integrity and Security
- Risk Management for Protection Programs and Activities
- Infrastructure Systems
- Long-Term Vulnerability Reduction
- Intelligence and Information Sharing

1. Local Planning

Regional Planning Commissions (RPCs) will work with their local municipalities to update and submit Local Emergency Management Plans (LEMPs). Municipalities will report adoption of LEMPs through their RPCs with a LEMP municipal adoption form and plan. Municipalities will coordinate with Regional Planning Commissions (RPCs) for assistance in developing and exercising their LEMPs. VEM Regional Coordinators will coordinate with RPCs on LEMP development. RPCs will work with local municipalities to update and submit their LEMPs in compliance with the standards outlined in the [LEMP Municipal Adoption Form](#).

LEMPs are due after Town Meeting Day but before May 1st of each year.

RPCs will compile LEMP information using a LEMP Spreadsheet provided by VEM before the final Friday of each month. The LEMP requires that a municipality’s Emergency Management Director (EMD) be included as the first of the three points of contact listed in the LEMP. These three points of contact are used by VEM to compile the EMD listserv.

Each RPC shall:

- A. Reach out to all municipalities within their region with the LEMP requirements and offers of assistance.
- B. Assist municipalities in completing their LEMP as requested, partnering with VEM Regional Coordinators.
- C. Conduct municipal training, as appropriate, for new municipal officials in how to complete their LEMP.
- D. Once completed LEMPs are received:
 1. Review LEMP to ensure it contains the required elements, as noted on the municipal adoption form.
 2. Send completed LEMP materials to VEM Regional Coordinator for their review and approval.
 3. Enter LEMP information into provided LEMP database before the final Friday of each month.
 4. Coordinate with the EMD for each city/town to verify public contact method. Input that public contact method into the provided LEMP database.

10/02/2023**Executive Committee****38**

- E. Reach out to the municipality to request updated contact information and update the LEMP database with the new contact information if the LEMP information is incorrect.

Reporting Requirements:

- A. Provide a summary in each quarterly report of the number of hours expended, number of completed LEMPs submitted, and major tasks accomplished.
- B. Provide any feedback to VEM Regional Coordinators regarding municipalities which required additional assistance in order to capture any potential problem areas.
- C. Submit LEMPs and LEMP information through the LEMP database to VEM before the final Friday of each month.

2. Technical Assistance and Education

RPCs will provide technical assistance and overall regional/ statewide coordination for emergency preparedness, response, mitigation, and long-term recovery.

RPCs are encouraged to work with their RPC counterparts to ensure trainings and/or exercises (as able) will be cross-jurisdictional and reach a wider audience. Courses or exercises which are coordinated between multiple RPCs can be claimed on each RPC's quarterly report.

Venue, food, and drink costs for meetings are allowable expenses, but should be kept to a minimum. Food and drink costs must adhere to US General Services Administration per diem rates, per registered participants attending the meeting. The US General Services Administration per diem rates vary by location but are, at a minimum:

- Breakfast \$13
- Lunch \$15
- Dinner \$26

(Source: https://www.gsa.gov/travel/plan-book/per-diem-rates/per-diem-rates-results/?action=perdiems_report&state=VT&fiscal_year=2023&zip=&city=)

Each RPC shall:

- A. Coordinate with the VEM Regional Coordinator to schedule, develop, and conduct cross-functional emergency management related trainings and/or exercises to meet local needs.
- B. Participate (at least one individual per RPC) in monthly conference calls with VEM staff. (1 hour per meeting)
- C. Participate (at least one individual per RPC) in quarterly regional meetings. These regional meetings will be facilitated by the VEM Regional Coordinator and will be an opportunity to coordinate with other RPCs and the VEM Regional Coordinator serving that region. Each RPC should expect to host one (1) meeting at their office, recognizing that in some regions this may be more or less. (4 hours per quarterly meeting to account for travel time should these be allowable in-person)
- D. Provide technical assistance for communities in emergency preparedness and hazard mitigation to include onboarding for EMDs and EMCs, and presentations for local officials.

Each RPC may:

- A. **Grant Applications:** Assist municipalities in applying for grant applications, as long as these administrative costs are not eligible under the grant. Assistance can include grants from the following:
 - Homeland Security Grant Program
 - Hazard Mitigation Grant Program
 - Building Resilient Infrastructure and Communities
 - Flood Mitigation Assistance
 - State Hazard Mitigation Program
 - Flood Resilient Communities Fund
 - all other grant application assistance must be approved by VEM.
- B. **ERAF:** Provide Local Emergency Relief Assistance Fund (ERAF) assistance to municipalities, to include but not limited to:
 - National Flood Insurance Program (NFIP) compliance to include:
 - Supporting towns with NFIP or River Corridor bylaw development or updates
 - Supporting towns in maintaining NFIP compliance
 - Supporting towns in joining NFIP or Community Rating System (CRS)
 - Participating in floodplain manager trainings
 - Participating in NFIP re-mapping processes

10/02/2023**Executive Committee****39**

- Local Hazard Mitigation Plan (LHMP) development assistance if there is no other funding assistance for LHMP development.

EMPG funds may not be used for the following tasks:

- RPCs can apply on behalf of towns for Local Hazard Mitigation (LHMP) development, however FEMA will not cover their indirect rate for staff hours. EMPG funds can be used for developing hazard mitigation project applications for municipalities. If a town asks an RPC for LHMP grant development assistance, the RPC should forward their request to the VEM Hazard Mitigation Team. The Hazard Mitigation Team can assist towns with application development and will apply on behalf of towns.
- If there is any Hazard Mitigation Assistance (HMA) funding for a town to develop an LHMP, EMPG cannot be used to assist that town with LHMP development. If there is funding through HMA, there should be no duplication of billing to other federal sources.

- C. **Training Attendance:** Budget for attendance at trainings that allow RPCs to better assist their municipalities with the above programs. Trainings external to VEM will need to be approved by the EMPG subgrant manager prior to registration and attendance.
- D. **Conducting exercises:** Work with municipalities to exercise their LEMP. If the RPC is conducting an exercise without support from the VEM Regional Coordinator, the individual conducting the exercise must attend and pass the Homeland Security Exercise and Evaluation Program (HSEEP) basic 2-day class and the exercise must use the HSEEP methodology.
- E. **Hazard Mitigation Regional Support:** Provide regional support for the creation and adoption of Local Hazard Mitigation Plans. This work may include items such as:
- Developing a Local Hazard Mitigation Plan template that identifies regional hazards, meets FEMA's minimum requirements, and simplifies the process for towns to adopt a Local Hazard Mitigation Plan.
 - Developing local stakeholder lists that include local and regional agencies involved in hazard mitigation activities; entities that have the authority to regulate development; neighboring communities; representatives of businesses, schools/academia, and other private organizations that sustain community lifelines; and representatives of nonprofit organizations including community-based organizations that work directly with or provide support to vulnerable populations or frontline communities.
- F. **State Emergency Management Initiatives:** Provide local and regional coordination and support; partnering with VEM Regional Coordinators and other stakeholders to meet RPC and state emergency management initiatives. This may include:
- Staff participation at the SPR workshop, Integrated Preparedness Planning Workshop, Annual Emergency Preparedness Conference, and VEM meetings.
 - Assisting in regional needs assessments.
 - Support the State Emergency Response Commission (SERC) as the RPC representative or designee. Only select RPCs should be budgeting for this.
 - Support the Local Emergency Planning Committee (LEPC) as the RPC or REMC representative. Only select RPCs should be budgeting for this.
 - Additionally, RPCs can budget a small amount of time for SERC/LEPC meeting minute review.
- G. **Additional Local Support:** Provide coordination and support to local entities.
- Technical support and outreach to local communities, Citizens Corps programs, VOADs, COADs, and other local/regional/statewide emergency management teams.
 - Assisting in scheduling of emergency management training and exercises for communities.
 - Budget for direct requests and invitations. Understanding that many requests for assistance (from VEM and/or local contacts) will come throughout the year and cannot be 100% accurately represented in the application up front, RPCs are asked to build their budget and staff time as best as possible based on known or anticipated assistance which will be required in the coming grant cycle.

10/02/2023**Executive Committee****40****Reporting Requirements:**

- i. For any trainings not scheduled through the Learning Management System, provide verification of the training (i.e. course announcement, sign-in sheet), on a quarterly basis.
- ii. Submit the [Food and Drink Per Diem Form](#) with quarterly reimbursement requests if food or drink was purchased for meetings that quarter.
- iii. Provide a summary of hours expended, meetings attended or hosted, pending trainings and exercises, and goals achieved through technical assistance to include the topic and communities/ partners involved in each quarterly report.

3. Regional Emergency Management Committee

Regional Planning Commissions will continue implementing the overall Regional Emergency Management Committee (REMC) program developed by VEM.

Each RPC shall:

- a. Build and support membership, and plan and coordinate long-term REMC goals and activities.
- b. Perform administrative tasks for the REMC including scheduling meetings, sending invitations, securing a location, soliciting presenters, and completing requirements of Vermont's Open Meeting Law. A minimum of 4 REMC meetings will be held each year.
- c. Provide VEM with a link to a website where meeting minutes and agendas can be accessed.
- d. Support REMC activities in emergency planning and preparedness to improve local preparation for, response to, and recovery from all-hazard disasters.

Reporting Requirements:

- i. Provide a summary of hours expended, meetings attended or hosted, and the communities/ partners involved in each quarterly report.
- ii. Submit the [Food and Drink Per Diem Form](#) with quarterly reimbursement requests if food or drink was purchased for meetings that quarter.

4. Statewide Emergency Response Preparation

The tasks identified within this section (Statewide Emergency Response Preparation) are intended to train and prepare RPC staff to serve the role of Local Liaison and/or State Emergency Operations Center (SEOC) staff during real world emergencies. During real world emergencies, the VEM/RPC MOA serves as the mechanism for work scope and payment to the RPCs for the assistance of RPC staff in carrying out the State's duties in performing certain emergency management functions. All work related to training and exercising for those roles should be covered under this EMPG RPC Subgrant.

RPCs will ensure two individuals are identified in the EMPG Subgrant application and in the EMPG Quarterly Reports that may operate within the SEOC during and outside of normal business hours. To ensure an appropriate statewide level of response can be attained, RPCs will assist VEM in providing staff to the SEOC during activations (exercises or actual events). To this end, RPCs will need to ensure their staff members are appropriately trained and obtain experience in supporting the SEOC. VEM will work with identified RPC staff to determine appropriate primary and secondary SEOC roles.

RPCs will also identify a minimum of three staff that will act as Local Liaisons in the EMPG Subgrant application and in the EMPG Quarterly Reports. Staff identified as Local Liaisons can be different than the staff identified to serve in the SEOC. RPCs will provide any appropriate updates for Local Liaison staff or SEOC staff (at a minimum in the Quarterly Reports) to ensure contact information is up to date.

Each RPC shall:

- a. Ensure each individual identified as SEOC support is trained to the SEOC Section Staff level in accordance with the October 2022 SEOC Training Policy.
- b. Ensure each individual identified as a Local Liaison is familiar with the Local Liaison reporting process. RPCs may reach out to the VEM Planning Section to provide an overview of the Local Liaison process to any RPC staff identified as a Local Liaison.
- c. Ensure that by the end of the award period of performance, at least one individual (of the two qualified individuals identified) has GIS experience sufficient to serve as a Information Analysis Unit Leader in the SEOC. Other roles will be determined based on SEOC need. RPCs should budget a minimum of 1 and a maximum of 40 hours total for each of the 2 identified staff members to complete trainings as identified in the SEOC Training Curriculum.

10/02/2023**Executive Committee****41**

- d. Budget 16 hours for individuals identified as SEOC support or Local Liaisons to participate in one SEOC exercise per year. Participation over this amount will be completed as funding allows.
- e. Participate in after action meetings and in the improvement planning process for any SEOC activations. This may include meetings and/or conference calls relating to Local Liaison activations or exercises/ incidents which required RPC personnel within the SEOC. Budget 8 hours.

Reporting Requirements:

- i. Provide verification of RPC points of contact (even if no change) in each quarterly report, or as changes occur. Notifying VEM of changes to points of contact should not wait until the quarterly report, but at a minimum should be updated quarterly. RPCs shall ensure both Local Liaisons and SEOC staff are identified. Minimum contact information should include name, phone, email, and roles the individual can fill in the SEOC. Provide number of hours (based on the number of training hours per course) each staff member will be using towards this task.
- ii. Provide the number of hours and staff participation in State AAR/IPs in each quarterly report.

1. Definitions: For purposes of this Attachment, "Party" shall mean the Contractor, Grantee or Subrecipient, with whom the State of Vermont is executing this Agreement and consistent with the form of the Agreement. "Agreement" shall mean the specific contract or grant to which this form is attached.

2. Entire Agreement: This Agreement, whether in the form of a contract, State-funded grant, or Federally-funded grant, represents the entire agreement between the parties on the subject matter. All prior agreements, representations, statements, negotiations, and understandings shall have no effect.

3. Governing Law, Jurisdiction and Venue; No Waiver of Jury Trial: This Agreement will be governed by the laws of the State of Vermont. Any action or proceeding brought by either the State or the Party in connection with this Agreement shall be brought and enforced in the Superior Court of the State of Vermont, Civil Division, Washington Unit. The Party irrevocably submits to the jurisdiction of this court for any action or proceeding regarding this Agreement. The Party agrees that it must first exhaust any applicable administrative remedies with respect to any cause of action that it may have against the State with regard to its performance under this Agreement. Party agrees that the State shall not be required to submit to binding arbitration or waive its right to a jury trial.

4. Sovereign Immunity: The State reserves all immunities, defenses, rights or actions arising out of the State's sovereign status or under the Eleventh Amendment to the United States Constitution. No waiver of the State's immunities, defenses, rights or actions shall be implied or otherwise deemed to exist by reason of the State's entry into this Agreement.

5. No Employee Benefits For Party: The Party understands that the State will not provide any individual retirement benefits, group life insurance, group health and dental insurance, vacation or sick leave, workers compensation or other benefits or services available to State employees, nor will the State withhold any state or Federal taxes except as required under applicable tax laws, which shall be determined in advance of execution of the Agreement. The Party understands that all tax returns required by the Internal Revenue Code and the State of Vermont, including but not limited to income, withholding, sales and use, and rooms and meals, must be filed by the Party, and information as to Agreement income will be provided by the State of Vermont to the Internal Revenue Service and the Vermont Department of Taxes.

The State shall notify the Party in the event of any such claim or suit, and the Party shall immediately retain counsel and otherwise provide a complete defense against the entire claim or suit. The State retains the right to participate at its own expense in the defense of any claim. The State shall have the right to approve all proposed settlements of such claims or suits.

After a final judgment or settlement, the Party may request recoupment of specific defense costs and may file suit in Washington Superior Court requesting recoupment. The Party shall be entitled to recoup costs only upon a showing that such costs were entirely unrelated to the defense of any claim arising from an act or omission of the Party in connection with the performance of this Agreement.

The Party shall indemnify the State and its officers and employees if the State, its officers or employees become legally obligated to pay any damages or losses arising from any act or omission of the Party or an agent of the Party in connection with the performance of this Agreement.

Notwithstanding any contrary language anywhere, in no event shall the terms of this Agreement or any document furnished by the Party in connection with its performance under this Agreement obligate the State to (1) defend or indemnify the Party or any third party, or (2) otherwise be liable for the expenses or reimbursement, including attorneys' fees, collection costs or other costs of the Party or any third party.

8. Insurance: Before commencing work on this Agreement the Party must provide certificates of insurance to show that the following minimum coverages are in effect. The Fiscal Year (FY) 2022 DHS Standard Terms and Conditions apply to all new federal financial assistance awards funded in FY 2022. These terms and conditions flow down to subrecipients unless an award term or condition specifically indicates otherwise. The United States has the right to seek judicial enforcement of these obligations. All legislation and digital resources are referenced with no digital links. DHS financial assistance recipients must complete either the Office of Management and Budget (OMB) Standard Form 424B Assurances - Non-Construction Programs, or OMB Standard Form 424D Assurances - Construction Programs, as applicable. Certain assurances in these documents may not be applicable to your program, and the DHS financial assistance office (DHS FAO) may require applicants to certify additional assurances. Applicants are required to fill out the assurances as instructed by the awarding agency.
- II. DHS financial assistance recipients are required to follow the applicable provisions of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards located at Title 2, Code of Federal Regulations (C.F.R.) Part 200 and including recipients acting as pass-through entities) of federal financial assistance from DHS or one of its awarding component agencies must complete the DHS Civil Rights Evaluation Tool within thirty (30) days of receipt of the Notice of Award for the first award under which this term applies. Recipients of multiple awards of DHS financial assistance should only submit one completed tool for their organization, not per award. After the initial submission, recipients are required to complete the tool once every two (2) years if they have an active award, not every time an award is made. Recipients should submit the completed tool, including supporting materials, to CivilRightsEvaluation@hq.dhs.gov. This tool clarifies the civil rights obligations and related reporting requirements contained in the DHS Standard Terms and Conditions. Subrecipients are not required to complete and submit this tool to DHS. The evaluation tool can be found at <https://www.dhs.gov/publication/dhs-civil-rights-evaluation-tool>. Waivers

When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements.

(a) When the federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the domestic content procurement preference in any case in which the agency determines that:

(3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the domestic content procurement preference must be in writing.

The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the OMB Made in America Office. There may be instances where an award qualifies, in whole or in part, for an existing waiver described. This review does not address all federal, state, and local requirements. Acceptance of federal funding requires the recipient to comply with all federal, state, and local laws. DHS/FEMA is required to consider the potential impacts to natural and cultural resources of all projects funded by DHS/FEMA grant funds, through its EHP review process, as mandated by: the National Environmental Policy Act; National Historic Preservation Act of 1966, as amended; National Flood Insurance Program regulations; and any other applicable laws and executive orders. The DHS Standard Terms and Conditions are a restatement of general requirements imposed upon recipients and flow down to subrecipients as a matter of law, regulation, or executive order. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribe where it does not already exist.

Article XLIV - Acceptance of Post Award Changes

In the event FEMA determines that changes are necessary to the award document after an award has been made, including changes to period of performance or terms and conditions, recipients will be notified of the changes in writing. 10/02/2023**Executive Committee****56**

Therefore, for awards with an approved budget where the federal share is greater than the simplified acquisition threshold (currently \$250,000), you may not transfer funds among direct cost categories, programs, functions, or activities without prior written approval from FEMA where the cumulative amount of such transfers exceeds or is expected to exceed ten percent (10%) of the total budget FEMA last approved. For purposes of awards that support both construction and non-construction work, FEMA is utilizing its discretion under 2 C.F.R. section 200.308(h)(5) to require the recipient to obtain prior written approval from FEMA before making any fund or budget transfers between the two types of work. You must report any deviations from your FEMA approved budget in the first Federal Financial Report (SF-425) you submit following any budget deviation, regardless of whether the budget deviation requires prior written approval.

Memorandum of Understanding**Between Central Vermont Regional Planning Commission and Central Vermont Medical Reserve Corps****For services provided by Central Vermont Regional Planning Commission as the fiscal agent****Date October, 2023**

Background – This agreement describes the activities and responsibilities of Central Vermont Regional Planning Commission (hereafter “CVRPC”) and the Central Vermont Medical Reserve Corps (hereafter “MRC”), primarily for managing the funds for the MRC. The MRC program is a national volunteer program currently supported by the Vermont Department of Health Division of Emergency Preparedness, Response, and Injury Prevention. The MRC is not a formally incorporated group and is not eligible to directly receive grant funds from the State of Vermont. Accordingly, the MRC has approached CVRPC to act on behalf of the MRC as a fiscal agent.

Funds – Biannually the MRC, through activities, anticipates receiving funds from the Department of Health as directed by the U.S. Health and Human Services. These funds will be paid into the Central Vermont Regional Planning Commission Checking Account and retained for MRC purposes.

The Vermont Department of Health Grant – the Medical Reserve Corps Activities grant agreement may remain in place to include grants in the future and/or other sources of MRC funds.

CVRPC acting as fiscal agent agrees to:

- Meet the requirements of the Subrecipient requirements of the Medical Reserve Corps Activities grant.
- Establish and maintain a checking account for the purposes of holding and distributing MRC funds.
- Provide accounting of revenue payments made, and balance in the account on a periodic basis and/or as required by the MRC.
- Provide a person to serve as the point of contact within CVRPC for MRC activities.

The MRC agrees to:

- Submit grant documentation and invoice twice per year to the CVRPC as fiscal agent for review and signature.
- Submit invoices and documentation signed by the CVRPC as fiscal agent to the Department of Health for subgrant payout.
- Provide the CVRPC fiscal agent with a roster of members annually, or upon the schedule requested by the CVRPC, if a more frequent accounting is desired.
- Meet the program reporting requirements of the Department of Health grant.

- Make requests for payment of funds in writing to CVRPC. These may be submitted by email to CVRPC's designated point of contact.
- Maintain contact with CVRPC through the designated point of contact in an effort to resolve any issues or needs that arise.
- Reimburse CVRPC up to 5% of the total funds received for the year from the Department of Health grant to support the coverage of administrative processing expenses.

Updates and clarification to the memorandum of agreement – Updates, clarifications, or changes to this memorandum of agreement may be made at any time as needed and as agreed to by both CVRPC and the MRC.

Term of the agreement – there is not specific term for this agreement and CVRPC's service as the MRC fiscal agent. It is anticipated that this relationship could be in place for a number of years and may continue to new grants or other sources of revenue to support MRC activities.

Termination of CVRPC service as fiscal agent – Either the MRC or CVRPC may terminate CVRPC's service as the fiscal agent for the MRC with at least 30 days written notice to the other party. CVRPC agrees to return any fund balance remaining in the MRC account to the MRC or another fiscal agent.

Agreed to by:

Contract #46372

ATTACHMENT A – STATEMENT OF WORK**Project Description, Tasks, & Deliverables**

The Department of Public Service (Department) is currently in the process of implementing its Public Engagement Plan as part of its comprehensive review of Vermont's renewable and clean electricity policies and programs. The Department's Contractor (**Addition County Regional Planning Commission or "ACRPC"**) with the assistance of their subcontractors (**Bennington County Regional Commission, Central Vermont Regional Planning Commission, Chittenden County Regional Planning Commission, Lamoille County Regional Commission, Mount Ascutney Regional Commission, Northeastern Vermont Development Association, Northwest Regional Planning Commission, Rutland Regional Planning Commission, Two- Rivers Ottauquechee Regional Commissions, and Widham Regional Commission**) will specifically support implementation of Phase Two of this Plan, the Policy and Program Review. From this point forward references to "Contractor" include both ACRPC as the prime and the others listed above as the subcontractors. The Contractor will coordinate with the Subcontractors to compile and provide deliverables.

The Contractor and their Subcontractors shall organize and convene geographically distributed listening sessions and discussion forums across Vermont. These forums will provide a space to hear from Vermonters about what they value about renewable electricity and what they would like to see from renewable and clean electricity policies and programs in Vermont. The Department envisions that the forums would be structured specifically to better understand Vermonters':

1. Preferences for "clean" (or low-carbon) versus "renewable" energy standards and supporting programs
2. Priority issues when deciding where their electricity comes from (including but not limited to technologies, scales, locations, pace, costs, benefits, and other core issues such as affordability, reliability, and environmental impacts) and/or
3. Particular benefits and/or challenges with existing programs and policies

The primary objective of this work is to engage with Vermont's residents directly, giving them a voice in the conversations and decision-making processes leading to renewable energy policies. In particular, this work should endeavor to include those who have been historically left out of those conversations and decision-making processes. The Contractor and their Subcontractors will support further refining these objectives into clearly defined questions to address.

Regular check-ins with the Department, detailed written summaries for each event, and submission of copies of any materials produced based on comments offered and/or discussions that occur at events (ex. brainstorming documents) are all required. The information resulting from this project will be used by the Department to inform recommendations to the Vermont General Assembly on future renewable energy policies and programs.

Contract Oversight

Funds are provided to the ACRPC to support the provision of services and completion of products specifically described in this contract and must be used in a manner that conforms to all relevant State standards. The services performed under this Contract shall be monitored by State assigned staff. Reporting requirements will include performance expectations and deliverables,

as described herein. Any changes to time, scope, and/or resources shall be discussed in advance and the impacts to the work to be performed will be determined and reduced to writing by the State and the Contractor in the form of a contract amendment. The Department will provide ACRPC \$1,500 to support costs related to administering this contract.

Task 1: Kick-Off, Ongoing Meetings, and Revised Work Plan

As soon as possible after the contract execution the Contractor shall schedule a project kick-off meeting – in-person or virtually - with Department staff. The purpose of this meeting is to ensure there is a common understanding of the project's needs, refine the proposed scope of work and timeline, address priority issues, and agree on a preliminary schedule of deliverables. At least one staff member from the Contractor and each Subcontractor will attend unless Department staff are otherwise notified.

Agenda items for the kick-off meeting will focus on reviewing the proposed scope & workplan including project timeline and deliverable schedule, including the following items:

- Specific questions for the forums to address
- Coordination of how events roll out across Vermont (i.e., will all discussions focus on the same questions or different ones based on their expertise/region/etc.)
- Event dates, logistics, advertising strategies, and supporting materials
- Communication procedures and other administrative and management details
- Next steps

The Department expects to hold a series of follow-up planning calls with the Contractor to finalize each of these details.

Task 1 Deliverables – Following execution of the contract, Contractor shall:

- Coordinate with the Department to schedule a kick-off meeting as soon as possible following contract execution. Meeting coordination must take place within five business days following contract execution and the meeting will be scheduled based on Contractor availability.
- Coordinate with the Department to schedule ongoing meetings based on staff availability. Ongoing meetings shall be weekly as deemed necessary and no less than bi-weekly.
- Engage in one round of work plan review if requested by PSD staff and provide final work plan.

Task 2: Listening & Discussion Forums

The Contractor and Subcontractors shall organize and hold Listening and Discussion Forums. The Forums will seek to address the questions outlined in Task 1. The Contractor and Subcontractors shall plan to conduct up to two sessions each (maximum of 22 events total) of roughly 90 minutes to two hours to address these questions. The sessions should be offered at a diversity of days and times for the public to attend and/or to allow for targeting different communities as is appropriate. For example, events could be for the public broadly or focused on reaching energy committees or low-income, BIPOC (Black, Indigenous, and People of Color), or renter communities, among others. The Contractor and Subcontractors are encouraged to engage with partner organizations as appropriate to help reach a broad array of Vermonters and may partner with other events for this work, however, there must be space within these existing events to hold targeted discussions on renewable and clean electricity programs and policies, the focus of this public engagement effort. The Department envisions these events occurring in person but understands there are also benefits to virtual events if there is a strong preference for that medium instead.

STANDARD CONTRACT FOR SERVICES

Contract #46372

- Food and/or childcare at events
- Venue costs & IT
- Compensation for participants
- Language access and translation services
- Facilitation services

Department staff will assist the Contractor in developing materials for the events, which will build off or modify materials from the Department's previous engagement work on renewable electricity. The Department will also support a coordinated approach to translating materials, as appropriate and in consultation with the Contractor and Subcontractors on what languages are most prevalent in their regions. The Department will provide input on event logistics and structures and advertise events through the Department's channels.

The Contractor will provide the Department with one draft written summary of the events occurring in each Regional Planning Commission territory within two weeks of the final event in that region. The Contractor will revise the summaries based on feedback from the Department. The Contractor shall also make themselves available for at least one meeting with the Department following the conclusion of events to develop a set of core learnings and key takeaways from the effort.

ATTACHMENT A
SCOPE OF WORK TO BE PERFORMED

1. Background/Overview:

Climate change has already increased heat-related health risks in Vermont, and we can expect even more frequent and harmful hot weather episodes in the future. The 2018 heat wave starkly demonstrated the dangers of heat in Vermont, taking the lives of at least four Vermonters. Vermont communities need to prepare and plan for the growing threat of harmful hot weather in Vermont.

The Vermont Climate & Health Program is providing funding to Subrecipient to build Subrecipient's capacity for hot weather emergency planning, to provide direct technical assistance to local partners for developing hot weather emergency plans, and to collect data on cooling facilities in Subrecipient's region.

Desired Outcomes

The work conducted under this agreement will help increase hot weather preparedness in Vermont, by:

- Increasing capacity for regional and local planners to prepare for hot weather emergencies.
- Developing local plans to reduce health impacts related to hot weather emergencies.
- Encouraging identification of community cooling facilities and communication of cooling facility locations with the public.

Grant Monitoring & Technical Assistance

The State of Vermont will conduct regular monitoring activities to ensure compliance with the terms of this agreement. Monitoring activities will include desk reviews of each invoice and any associated deliverables; and regularly scheduled remote or in-person meetings to review on-going technical assistance, grant performance and management. Additional monitoring activities may occur, if deemed necessary.

Performance-Based Agreements

All grants and contracts executed by the State of Vermont are performance-based agreements. Using Results-Based Accountability (RBA) as a "common sense-based" approach to performance management, the measures in this agreement include quantity (how much?), quality (how well?), desired outcomes (are Vermonters any better off?), and timeliness as goals that incorporate this agreement's required services/activities into the larger continuum of heat illness prevention. Grant performance will be measured and

2. Required Services/Activities:

Task 1: Capacity building

Subrecipient will develop their own planning guidance and template that integrates the Climate & Health Program's Local Hot Weather Preparedness Guidance and Template with additional guidance, templates, and/or recommended actions for addressing extreme cold. Subrecipient will also participate in a hot weather emergency planning training and discussion that will take no longer than 2 hours. Climate & Health Program staff will provide the training to multiple Subrecipients and facilitate discussion about delivering the assistance, expected challenges, and desired outcomes.

Deliverable 1.1: Hot weather emergency planning training feedback

At least one Subrecipient staff member will participate in the training session and submit a brief evaluation of the training using a form provided by the Climate & Health Program.

Deliverable due: 11/31/23

Deliverable 1.2: Extreme temperature planning guidance and template

Subrecipient will submit a revised version of the planning guidance and template that integrates extreme heat and extreme considerations. Deliverable should specifically address integration of extreme temperature preparedness and response into Local Emergency Management Plans and Local Hazard Mitigation Plans.

Deliverable due: 11/31/23

Task 2: Cooling facility outreach and data collection

Subrecipient will support the Climate & Health Program by 1) reaching out to communities to encourage identification of local cooling facilities and 2) prompting communities to submit data to the Climate & Health Program on local cooling facility locations or collecting and compiling the data from communities or from existing sources. Cooling facility locations will subsequently be communicated to the public and partners through the State of Vermont online cooling facility map. The Climate & Health Program will provide outreach materials to Subrecipient about the importance of identifying local cooling facilities and an online data collection form.

Deliverable 2.1: Brief cooling facility summary report

Subrecipient will submit a brief report summarizing outreach and/or use of existing data sources to solicit cooling facility information from communities in their region. Any cooling facility data collected/compiled by Subrecipient that was not previously submitted through the online data collection form should be documented in the report. Subrecipient should summarize any challenges faced or lessons learned that can help improve identification and data collection about cooling facilities in the future. The Climate & Health Program will provide Subrecipient with a template for collecting the above.

Deliverable due: 11/31/23

Task 3: Technical assistance

Subrecipient will deliver technical assistance **to five municipalities** to develop local hot weather emergency plans. Technical assistance should be based on the guidance and template completed in Task 1 but can be tailored by the Subrecipient to best fit the needs, context, and capacity of the specific municipality. At a minimum, local plans should identify key triggers, actions, and responsibilities for the municipality in response to a hot weather emergency, including identification of current or potential cooling facilities, identification of high-risk community members and strategies for aiding those individuals, outreach strategies about heat safety and adaptation resources, and other policies, procedures, or plans to support heat safety.

Deliverable 3.1: Draft Local Hot Weather Emergency Plans

For each municipality receiving technical assistance from Subrecipient, Subrecipient will submit a draft municipal hot weather emergency plan. It is understood that official adoption or otherwise finalizing the plan will be subject to local procedures and may not occur during the timetable of this grant.

Deliverable due: 4/30/24

Deliverable 3.2: Brief technical assistance summary report

Subrecipient will submit a brief report summarizing work completed, challenges faced, lessons learned, and any other suggestions for improving the guidance, template, community selection, or technical assistance in the future. The Climate & Health Program will provide Subrecipient with a template for collecting the above.

Deliverable due: 4/30/24

Party shall, in preparing its policy, consult with the guidelines promulgated by the U.S. Occupational

Safety and Health Administration for *Preventing Workplace Violence for Healthcare and Social Services Workers*, as those guidelines may from time to time be amended.

The policy and any written evaluations thereof shall be provided to employees delivering direct social or mental health services.

Party will ensure that any subcontractor and sub-grantee who hires employees (or contracts with service providers) who deliver social or mental health services directly to individual recipients of such services, complies with all requirements of this Section.

Such items shall be delivered to the State of Vermont upon 30-days notice by the State. With respect to software computer programs and / or source codes first developed for the State, all the work shall be considered "work for hire," i.e., the State, not the Party (or subcontractor or sub-grantee), shall have full and complete ownership of all software computer programs, documentation and/or source codes developed.

Party, in the event of a data breach, shall comply with the terms of Section 7 above.

Public Law 103-227 (also known as the Pro-Children Act of 1994) and Vermont's Act 135 (2014) (An act relating to smoking in lodging establishments, hospitals, and child care facilities, and on State lands) restrict the use of tobacco products in certain settings. Party shall ensure that no person is permitted: (i) to use tobacco products or tobacco substitutes as defined in 7 V.S.A. § 1001 on the premises, both indoor and outdoor, of any licensed child care center or afterschool program at any time; (ii) to use tobacco products or tobacco substitutes on the premises, both indoor and in any outdoor area designated for child care, health or day care services, kindergarten, pre-kindergarten, elementary, or secondary education or library services; and (iii) to use tobacco products or tobacco substitutes on the premises of a licensed or registered family child care home while children are present and in care. The federal Pro-Children Act of 1994, however, does not apply to portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where Women, Infants, & Children (WIC) coupons are redeemed.

2-1-1 Database: If Party provides health or human services within Vermont, or if Party provides such services near the Vermont border readily accessible to residents of Vermont, Party shall adhere to the "Inclusion/Exclusion" policy of Vermont's United Way/Vermont 211 (Vermont 211), and will provide to Vermont 211 relevant descriptive information regarding

its agency, programs and/or contact information as well as accurate and up to date information to its database as requested. The “Inclusion/Exclusion” policy can be found at www.vermont211.org.

In the event any PRC member has a personal or financial interest with any individual, partnership, firm or corporation seeking to contract with the CVRPC, or to provide materials or labor thereto, or has a personal or financial interest in any project being considered by the PRC, the member shall state on the record the nature of his or her interest. If the member is uncertain whether he/she should participate in the discussion or decision, the PRC shall determine by vote whether the member should participate. The PRC may also make a determination of conflict if the majority of voting PRC members in attendance at the meeting determine a conflict of interest exists. A member of the PRC with an identified conflict of interest shall not deliberate or vote with the PRC but may participate in the open public discussion.

Commented [NC5]: Amended to conform with standard ROP language

PROJECT REVIEW COMMITTEE

RULES OF PROCESS

~~September 12, 2017~~

PURPOSE: To provide a uniform and consistent process by which the Project Review Committee (PRC) will review, evaluate, and comment on projects that meet the thresholds for Significant Regional Impact. The PRC serves in an advisory capacity to the CVRPC Board of Commissioners for projects that are seeking a permit through Act 250 (10 V.S.A. Chapter 151) as a state designated statutory party; or projects seeking a Certificate of Public Good through Section 248 (30 V.S.A. Chapter 5) of Vermont Statute. This process will ensure a fair and equitable evaluation of projects that are submitted for review.

INVOLVEMENT BY THE REGIONAL PLANNING COMMISSION: The PRC will make a determination on behalf of the full Commission regarding conformance or non-conformance with the Regional Plan when a Substantial Regional Impact has been identified, cumulative impacts will result in a Substantial Regional Impact, or may set a precedent within the Region. The conclusions reached will so state that they are made on available information. The PRC may also reserve its statutory right to participate in the Act 250/Section 248 hearing process if it must appear to ensure proposed projects are in conformance with the Regional Plan, regardless of whether the proposal has Substantial Regional Impact.

The PRC will become involved in the review of a project on behalf of a member municipality according to the following:

1. Staff will provide limited technical assistance at the request of either the legislative body or the planning commission. Limited technical assistance will consist of providing factual information allowing the requesting body to develop its own independent determinations regarding its participation and position. Limited technical assistance will not consist of involvement in hearings on behalf of a municipality or statements of support of municipal participation or positions.
2. PRC involvement on behalf of a member municipality beyond the scope of limited technical assistance as defined above must be at the request of the municipality's legislative body, in writing. This involvement will be provided only if the local position is

compatible with the adopted Regional Plan.

REVIEW PROCESS: Staff will review all applications that are submitted. Through this review, staff will [log application into CVRPC Project Review Database](#), evaluate the nature of the project and make an initial determination of Substantial Regional Impact based on the established criteria, application type¹, and project description. This determination will guide staff in establishing which of the following processes will be used.

1. Action by Staff

If a clear determination can be made that no Substantial Regional Impact will occur, staff will [note this decision in the Project Review Database](#) ~~provide a letter to the appropriate oversight body (the District 5 Environmental Commission or the Vermont Public Utility Commission) including all interested parties, that the project does not meet the criteria for Substantial Regional Impact as identified in the Regional Plan.~~ A clear determination would include applications that are classified as jurisdictional opinions or administrative amendments which typically propose time extensions, lot line adjustments, change of use for an existing structure, or similar activities.

2. Action by the Project Review Committee

If, after review, staff determines that a project may meet any or all of the criteria for Substantial Regional Impact, a summary of the proposal including the criterion on which staff feels the project may meet Substantial Regional Impact and any pertinent information related to the application will be forwarded to the PRC in advance of a regularly scheduled meeting. At the meeting, the PRC will discuss the project and make a determination regarding Substantial Regional Impact. The applicant and Commissioner from the host municipality (if not a Committee member) will be invited to attend and provide information related to the project or answer questions. If the PRC determines that Substantial Regional Impact has been met, they will identify whether the project is in conformance or not in conformance with the Regional Plan. Staff will prepare a letter to the District 5 Environmental Commission or the Public Utility Commission outlining the position of the PRC including any follow-up that may be requested.

3. Action by the Board of Commissioners

If, after review and discussion by the PRC, the scope and potential impacts are such that the PRC cannot reach a decision, the PRC will request that the project be reviewed by the full Commission in order to provide a position including the project's conformity with the Regional Plan. If the Board of Commissioners are unable to provide a determination of a project's conformity with the Regional Plan, the Board of Commissioners can choose to:

¹ Applications are generally classified as jurisdictional opinion, administrative amendment, minor application, or major application.

- a. Refer the project back to the PRC and request the PRC to continue the discussion in an effort to provide a determination
- b. Transmit correspondence to the District 5 Environmental Commission or the Public Utility Commission outlining the Board's discussion and indicating that no decision could be reached. In this case, specific reasons shall be included to fully inform and detail the reasons or issues that led to this result.

ADDITIONAL CONSIDERATIONS: Appeals of a decision by the District 5 Environmental Commission or the Public Utility Commission on a project shall be approved by the Executive Committee or the full Commission.

If, in its review, the PRC determines that a conflict exists between the provisions of municipal plans and the Regional Plan, the Commission will work with municipal officials to alleviate or minimize the conflict.

ADOPTION OF ORGANIZATIONAL PROCESS: The PRC may, at any time, vote to amend these rules of process, in accordance with quorum requirements noted in the Project Review Committee Rules of Procedure. Proposed amendments will be forwarded to PRC members before consideration at a regular PRC meeting. Amendments will then be forwarded to the Board of Commissioners for ratification.

Present:

☒ Peter Carbee

☒ Alexis Leacock

☐ Michael Gray

☒ Lee Cattaneo

☒ Paula Emery

☒ Janet Shatney

☒ Jerry D'Amico

Staff: Christian Meyer, Brian Voigt, Nancy Chartrand

Guest: Ahsan Ijaz, Ijaz Group

Call to Order: Chair D'Amico called the meeting to order at 5:32 pm.

Adjustments to the Agenda: Christian requested a special meeting of the Committee be scheduled prior to the Board meeting next week to discuss stormwater control behind Plainfield Health Center and potential for additional work before the grant is closed out in November. Nancy will do a survey monkey to get a day/time next week.

Christian also noted that the CCRPC Tactical Basin Planning Grant needed to be moved to action vs. for information.

Public Comment: None

Financial Report: Ahsan provided an overview of the information included in the meeting packet. He noted there are a several one-time invoices that inflate our accounts receivable (AR) balance related to invoices that go out in the month of July. This brings up the AR balance higher than usual.

Christian noted that the \$19,000 Memorandum of Agreement (MOA) is related to emergency management and the response to the July flood event. He also noted there will be fewer bank accounts in the future as we have closed out some of the older 'retired' accounts.

Peter requested a discussion the near future regarding consolidating funds and getting into a sweep situation to better leverage interest rates rather than dispersing among multiple banks. Christian advised we would be happy to meet to discuss this and consider an RFQ. There was also brief discussion related to following up on AR.

Contract/Agreement Authorization:

Department of Environmental Conservation – SFY2024 Water Quality Restoration Formula Grant

Brian provided an overview of the information provided in the packet related to the renewed funding for the Clean Water Service Provider program.

Paula Emery moved to authorize the Executive Director sign the grant agreement with; seconded by Janet Shatney. Motion carried – 6-0

1
2 Chittenden County Regional Planning Commission – Tactical Basin Planning FY24

3 Christian confirmed because this was an incoming grant, rather than a contract so it needs Executive
4 Committee approval even though it is under \$25,000. Brian provided a brief overview of the program.
5 Janet asked about the Plainfield Cooperative Grant and it was confirmed that Christian was managing
6 that grant.
7

8 *Peter Carbee moved to authorize the Executive Director sign the Chittenden County Regional Planning*
9 *Commission – Tactical Basin Planning grant agreement with; seconded by Lexi Leacock. Motion carried –*
10 *6-0*
11

12 Vermont Land Trust – John Fowler Road Berm Removal Preliminary Design – Marshfield, VT

13 Brian provided an overview, noting it is the first contract issued through the Clean Water Service
14 Provider (CWSP) program. He noted projects are reviewed and approved by the Basin Water Quality
15 Council (BWQC) before coming before the Committee. Paula requested a presentation in the future
16 before the Board on the details of phosphorus removal and the CWSP program. Lee Cattaneo also
17 requested additional information on how with the particular project the berm removal works. Brian
18 advised he would present more information on it at a future meeting.
19

20 *Janet Shatney moved to authorize the Executive Director sign the contract with Vermont Land Trust;*
21 *seconded by Paula Emery. Motion carried – 6-0*
22

23 **FY25 Municipal Dues**

24 Christian advised that the recommendation is to hold dues steady at this point. There was brief
25 discussion related to use of municipal dues for match to leverage funding and continuing to build a
26 reserve fund as requested by the Executive Committee several years ago. Christian also confirmed that
27 maintaining dues would not negatively impact staff ability to provide services.
28

29 *Lee Cattaneo moved to recommend to the Board that CVRPC maintain its municipal dues assessment*
30 *rate of \$1.33 per capita; seconded by Peter Carbee. Motion carried – 6-0*
31

32 **West Central CEDS MOU**

33 Christian provided an overview of the information outlined in the packet. The partners who worked to
34 complete the West Central VT CEDS are working together to enter a memorandum of understanding for
35 an Economic Development District (EDD). There was discussion related to staff support and Christian
36 noted it will likely be an economically focused staff member and noted a lot of the work is
37 complementary to our current ACCD work. It is estimated that a staff member would likely devote
38 approximately 40 hours per year to the work. There was discussion as to how often the CEDS is
39 reviewed and updated and it was confirmed this occurs every five years. There was a request that there
40 be more outreach to business owners in the Central Vermont region during the next review and update.
41

42 *Lexi Leacock moved to authorize the Executive Director to sign the MOU on behalf of CVRPC; seconded*
43 *by Peter Carbee. Janet wanted confirmation that the MOU in the packet was in draft form and was*
44 *going to be cleaned up for typos. It was confirmed it will be cleaned up. Vote called and motion carried*
45 *– 6-0*

1
2 **Meeting Minutes (7/31/23):**

3 *Janet Shatney moved to accept the minutes as presented Lexi Leacock seconded. Motion carried – 6-0*
4

5 Paula Emery stepped out of the meeting briefly and rejoined at 6:21 pm.
6

7 **Commission Meeting Agenda**

8 Christian Meyer provided a brief introduction of the Future Land Use (FLU) item that is included on the
9 Board agenda. He advised a methodology has been pieced together related to all 11 regions in the State
10 and that a document will likely be drafted at the upcoming VAPDA retreat. There was discussion on how
11 this FLU initiative may filter into all the regional plans and inform the work. There was suggestion that
12 we ask Commissioners to go back to their towns and query what they want documented into the final
13 document so that there will be mutual engagement. Christian will work with Clare to create some
14 prompts for this.
15

16 *Lexi Leacock moved to accept the agenda. Peter Carbee seconded. Motion carried – 6-0*
17

18 There was discussion related to whether or not State or Regional staff is looking at future of the Tactical
19 Basin Plan now that there has been such a large flooding event, and if there are other preventative steps
20 being taken statewide or regionally? Christian advised staff is in discussion with Vermont Emergency
21 Management (VEM) and there has been an indication that there will be a basin wide analysis that will
22 provide specific recommendations that the region can work to address. There has not yet been follow-
23 up and if the state isn't doing it, we plan to pursue funding to do it (hiring necessary contractors to do
24 so). It needs to be a watershed wide analysis and discussion. Given our work as the CWSP we could be
25 the organization to lead that. There are funding sources that we could likely apply for as it will likely be
26 several hundred thousand dollars. If the state leads it we plan to be an active participant.
27

28 **Adjourn**

29 *Janet Shatney moved to adjourn at 6:35 pm; Paula Emery seconded. Motion carried*

32 Respectfully submitted,
