Reach			
Damage description			

DSR NO: NRCS-PDM-20

Section 1D - Site Evaluation

Site Eligibility	YES	NO	Remarks
Damage was a result of a natural disaster? ¹			
Recovery measures would be for runoff retardation or soil erosion prevention? ¹			
Threat to life and/or property? ¹			
Event caused a sudden impairment in the watershed? ¹			
Imminent threat was created by this event? ²			
For structural repairs, not repaired twice within 10 years? ²			
Site Defensibility			
Economic, environmental, and social documentation adequate to warrant action? (See completed NRCS-CPA-52 and sections 3 and 4 of DSR. ³)			
Proposed action technically viable? (See section 6.3)			
Statutory Regulation The completed DSR and Form NRCS-CPA-52, "Environmental Evaluation summary page. If additional space is needed on this or any other page in the state of t	his form, a	ıdd appro	priate pages.
Have all the appropriate steps been taken to ensure that all segn formed of the EWP program and its possible effects? YES	•		ected population have been
Comments:			

Section 1E - Proposed Action

Describe the preferred alternative (same as NRCS CPA-52, boxes M and G)

Total installation cost identified in this DSR from section 6:

NRCS 75% cost-share:

Sponsor 25% cost-share:

DSR NO: NRCS-PDM-20

Section 1F - NRCS State Office Review and Approval

Reviewed by:		Date reviewed
	State EWP Program Manager	
Approved by:		Date approved
	State Conservationist	

Section 2 - Environmental Evaluation and Special Environmental Concerns

See attached NRCS-CPA-52, Environmental Evaluation Worksheet

Section 3 - Economic Considerations

This section must be completed for each alternative considered (attach additional sheets as necessary).

	Future Damages (\$)	Damage Factor (%)	Near Term Damage Reduction
Properties protected (private)			
Properties protected (public)			
			_
Business losses			
Dusiness iosses			
Other			
Tota	ıl near term dam	age reduction \$	
Net benefit (total near term damage reduc	ction minus Cost	from section 6)	
Completed by:	Date:		

Section 4 - Social Consideration

This section must be completed for each alternative considered (attach additional sheets as necessary).

	YES	NO	Remarks
Has there been a loss of life as			
a result of the watershed			
impairment?			
Is there the potential for loss of			
life due to damages from the			
watershed impairment?			
Has access to a hospital or			
medical facility been impaired			
by watershed impairment?			
Has the community as a whole			
been adversely impacted by the			
watershed impairment (life and			
property ceases to operate in a			
normal capacity)			
Is there a lack or has there been			
a reduction of public safety			
due to watershed impairment?			
Completed by:			Date:

Section 5 - Group Representation Information

This section is completed only for the preferred alternative selected.

Group Representation	Number
American Indian/Alaska Native Female Hispanic	
American Indian/Alaska Native Female Non-Hispanic	
American Indian/Alaska Native Male Hispanic	
American Indian/Alaska Native Male Non-Hispanic	
Asian Female Hispanic	
Asian Female Non-Hispanic	
Asian Male Hispanic	
Asian Male Non-Hispanic	
Black or African American Female Hispanic	
Black or African American Female Non-Hispanic	
Black or African American Male Hispanic	
Black or African American Male Non-Hispanic	
Hawaiian Native/Pacific Islander Female Hispanic	
Hawaiian Native/Pacific Islander Female Non-Hispanic	
Hawaiian Native/Pacific Islander Male Hispanic	
Hawaiian Native/Pacific Islander Male Non-Hispanic	
White Female Hispanic	
White Female Non-Hispanic	
White Male Hispanic	
White Male Non-Hispanic

Census tract(s)	
Completed by:	Date:

Section 6 - Engineering Cost Estimate

This section must be completed for each alternative considered (attach additional sheets as necessary).

Proposed recovery measure (including mitigation)	Quantity	Units	Unit cost (\$)	Amount (\$)	
Total installation cost (enter in sections 1E and 3) \$					

Unit Ab	breviations
AC	acre
CY	cubic yard
EA	each
HR	hour
LF	linear feet
LS	lump sum
SF	square feet
SY	square yard
TN	ton
Other	
(specify)	
Completed	hv.
Completed	υy.

Section 7 - NRCS EWP Funding Priority

Complete the following section to compute the funding priority for the recovery measures in this application (see instructions on page 9).

Priority Ranking Criteria	Yes	No		Ranking Number Plus Modifier
1. Is this an exigency situation?				
2. Is this a site where there is serious, but not immediate threat to human life?				
3. Is this a site where buildings, utilities, or other important infrastructure components are threatened?				
4. Is this site a funding priority established by the NRCS Chief?				
The following are modifiers for the above criteria			Modifier	
a. Will the proposed action or alternatives protect or conserve federally-listed threatened and endangered species or critical habitat?				
b. Will the proposed action or alternatives protect or conserve cultural sites listed on the National Register of Historic Places?				
c. Will the proposed action or alternatives protect or conserve prime or important farmland?				7
d. Will the proposed action or alternatives protect or conserve existing wetlands?				7
e. Will the proposed action or alternatives maintain or improve current water quality conditions?				
f. Will the proposed action or alternatives protect or conserve unique habitat, including but not limited to, areas inhabited by State-listed species, fish and wildlife management area, or State identified sensitive habitats?				

Enter priority computation in section 1A, "NRCS Entry Only" box, in "Funding priority number."

Section 9 - Attachments:

- A. Location map
- B. Site plan or sketches
- C. NRCS-CPA-52, Environmental Evaluation Worksheet
- D. Other (explain)

Instructions for Completing the NRCS-PDM-20, DSR

-	Explanation of Requested Item	Who Completes
Section 1	Enter Site Sponsor, Location, Evaluation, Selected Alternative,	NRCS completes
	and Reviewed and Approval Signatures.	with voluntary
1A	Enter the Date, DSR Number, and Project Number. For NRCS	assistance from
	only enter Eligible Yes/No, Approved Yes/No, Funding Priority	Sponsor except
	Number, and Limited Resource Area Yes/No.	for NRCS-only
1B	Enter Sponsor Name, Address, Telephone, Fax	portion of section
1C	Enter site location County, State, Congressional District, Latitude,	1A.
	Longitude, Section, Township, Range, UTM Coordinates,	
	Drainage name, Reach within drainage, and Damage description.	
1D	Enter Yes/No and any Remarks for the Site Evaluation	
	information. Any No response means the site is not eligible for	
	EWP assistance and no further information is necessary to	
	complete the DSR. (See NEWPPM 390-502.03 and 390-502-04)	
	Enter Yes/No regarding whether the affected public has been	
	informed of the EWP program.	
1E	Enter the proposed treatment and the cost of installation.	NRCS only.
1F	NRCS Review and Approval.	
Section 2	Attach NRCS-CPA 52 that addresses environmental evaluation	NRCS only.
	and special environmental concerns	
Section 3	Identify Property protected both private and public, business	NRCS completes
	losses and other economic impacts considered for each	with voluntary
	alternative. Enter the dollar value of the potential future damages	assistance from
	if no action is taken in the Future Damage (5) column. This	Sponsor.
	would be the estimate of the value lost if the EWP recovery	
	measure is not installed. Use the repair cost or damage dollar method to determine the estimate of future damages. The repair	
	cost method uses the costs to return the impaired property, good,	
	or services based on their original prevent condition or value. The	
	damage dollar method uses an estimate of the future damage to	
	value (e.g., if the structure is condemned, then enter the value of	
	the structure). Enter the estimated amount based upon existing	
	information or information furnished by the sponsor, contractors,	
	or others with specific knowledge for recovery from natural	
	disasters for each alternative considered. Often market values for	
	properties or services can be obtained from personnel at the local	
	county/parish tax assessment office.	
	The DSR team needs to determine the Damage Factor (%) which	
	is a coefficient that indicates the degree of damage reduction to a	
	property that is attributed to the effect of the proposed EWP	
	recovery measures. Use an appropriate estimate of how much of	
	the damage the EWP recovery measure will avoid for the	
	alternative being considered. If the recovery measures from a	
	single site will prevent 100 percent of the damage use 100 percent.	
	The Near Term Damage Reduction is the Future Damage (\$) times	
	the Damage Factor (%). Sum the Near Term Damage Reduction	
	values to calculate the Total Near Term Damage Reduction. Enter	
	the Net Benefit which is computed by subtracting the Cost from	
	Section 6 from the total near term damage reduction. The	

-	Explanation of Requested Item	Who Completes
	economic section must be completed for each alternative considered. Attach additional sheets as necessary.	
Section 4	Enter information to describe the potential social impacts and considerations for each alternative. Answer Yes or No and any remarks necessary to adequately address each question. The information may be obtained through interviews with community leaders, government officials or sponsors.	NRCS completes with voluntary assistance from Sponsor.
	Factors such as road closures, loss of water, electricity, access to emergency services are used when answering whether the community as a whole has been impaired.	
	This information is part of the environmental evaluation (NRCS-CPA-52) but may be pertinent in section 7 regarding funding priorities. The Social Considerations section must be completed for each alternative considered. Attach additional sheets as necessary.	
Section 5	Enter the Group Representation for the preferred alternative. Use the most recent census tract information based upon where the EWP recovery measures are located.	NRCS completes using most recent U.S. Census data.
Section 6	Enter Proposed Recovery Measure(s) including Quantity, Units, Unit Cost, and Total Amount Cost.	NRCS completes with voluntary
	Enter sum of all Proposed Recovery Measure Costs to calculate Total Costs. Enter Total Installation Costs in Section 1E. The Engineering Cost Estimate must be completed for each alternative considered. Attach additional sheets as necessary.	assistance from Sponsor.
Section 7	This section is used to determine the Funding Priority for the preferred alternative and sequence for initiating recovery measures. Enter Yes/No for questions 1 through 4 and enter the number (exigency 1, serious threat to human life 2, etc.) in the right column, Ranking Number Plus Modifier. Complete the Modifier portion by placing the alphabetic indicator a through f in the Modifier column. Complete the Ranking Number Plus Modifier column by entering the alphabetic indictor(s) that exists within the site. The number of the site designates the priority (e.g., a site with a designation of 2 is a higher priority that a site with a designation of 3). The modifiers increase the priority for the same numeric site (e.g., a site with a designation of 1a, would be a higher priority than a site with a designation of 2bc would be a higher priority than a site designated as 2b). Enter the Funding Priority in Section 1A.	NRCS completes with voluntary assistance from Sponsor.
Section 8	Insert the number of the Finding that was checked in section Q of the NRCS-CPA-52. If action is required to meet NEPA requirements, state whether an EA or EIS will be prepared or adopted."	NRCS only.
Section 9	Include attachments for location map, site sketch or plan, a completed NRCS-CPA-52, Environmental Evaluation Worksheet, and other information as needed.	NRCS completes with voluntary assistance from Sponsor.
