

# Town of Middlesex, VT

## Emergency Watershed Program Request for Proposals – Engineering Services

### Responses to questions regarding Request for Proposals

- 1. Question:** What happens if an applicant submits a cost proposal that exceeds the grant amount? Will the Town of Middlesex be able to apply for additional funding?

**Answer:** If all of the submitted cost proposals exceed the amount awarded to Middlesex by the Natural Resources Conservation Service, the Town may request additional funds from the granting agency. A request for additional funding would include a summary of the cost proposals and a justification for the supplementary request for funds. If the request is approved (by the Natural Resources Conservation Service), a contract amendment would be executed to award additional funding to the Town of Middlesex for project expenses. If the request for additional funding is denied, the Town may choose to cover costs in excess of the award amount or opt out of the Emergency Watershed Program.

**Full proposals due by 4:00 PM, 26 March 2024.**
