|   | Vacant, (environment, finance, or real estate organization)          |

**Staff:** Eli Toohey

**Call to Order:** Chair Shatney called the meeting to order at 10:03 am. Quorum was present. J. Shatney informed all she would take the meeting minutes.

**Adjustments to the Agenda:** There were no adjustments to the agenda by either members or staff.

**Meeting Minutes for November 21, 2024:** P. Carbee moved to approve the meeting minutes from November 21, 2024 with edits, and seconded by J.M. Misek, *motion carried*.

**Public Comment:** No members of the public were in attendance for any comment.

**Funding Requests:** E. Toohey informed all that there were several requests for funding for 2024, and there is slightly less money available than what the Committee will be able to authorize for spending.

- ***173 S Main Street, Barre (Quality Inn) for a Phase II BRELLA<sup>1</sup> Letter, and Phase II Supplemental Proposal and Cost Estimate:***

The Quality Inn is being purchased by Downstreet Housing and Community Development; they already have completed both a Phase I and Phase II ESA<sup>2</sup>, but need funding to support a supplemental Phase II plan. The work plan has been submitted and approved for 42 transitional units. They are BRELLA enrolled, and the action is for approving the additional Phase II

<sup>1</sup> BRELLA = Brownfields Reuse and Environmental Liability Limitation Act

<sup>2</sup> ESA = Environmental Site Assessment

32 funds. Motion by P. Carbee and seconded by J. Shatney to approve the use of Brownfields  
33 funding not to exceed \$14,857.42 for the supplemental Phase II. Further discussion regarding  
34 the Phase II proposal and cost estimate ensued, and an amended motion was made by P. Carbee  
35 to include the approval of the work plan and cost estimate, again seconded by J. Shatney,  
36 ***motion carried. Vote of the first motion also carried.***  
37

38 • ***53 Granite Street, Barre (Dessureau Machine) for Phase I funding:***  
39

40 E. Toohey gave background information on the project and that the City of Barre is seeking a  
41 Phase I as part of the FEMA<sup>3</sup> buyout process – site must be BRELLA enrolled and the funding  
42 sought is a not-to-exceed \$5,000. Both J. Shatney and M. Bounty stated their closeness to the  
43 project, and volunteered for recusal if appropriate. P. Carbee stated he saw no reason, nor had  
44 a problem with either participating in the committee's voting, and A. Farrell stated that there  
45 was no appearance of a conflict of interest. Moving on, P. Carbee was concerned that the  
46 funding request be postponed until the Committee knew it was BRELLA enrolled, E. Toohey  
47 stated that it was acceptable to allow for funding at this time knowing that the City of Barre  
48 was in the process.  
49

50 P. Carbee motioned to fund the Phase I and not-to-exceed \$5,000 with the requirement that it  
51 be BRELLA enrolled and accepted with funds coming out of the FY22-23 leftover, J.M. Misek  
52 seconded, ***motion carried.***  
53

54 At this point, E. Toohey noticed in the November minutes that the Committee was referred to as  
55 the Commission, and that she would revise the minutes noting this change.  
56

57 • ***57 Freight Yard Way, Northfield for Phase I funding:***  
58

59 E. Toohey noted that this project is similar to the Dessureau Machine project in that it she does  
60 not have a BRELLA letter in hand for this. They are looking for Phase I funding to turn the  
61 building into containing 8-10 housing units. Also noted that this would come out of the FY24  
62 funds. P. Carbee motioned to fund the Phase I with funds not-to-exceed \$2,750 contingent  
63 upon BRELLA enrollment and approval, seconded by A. Farrell, ***motion carried.***  
64

65 • ***300-302 Granger Road, Berlin (CVSWMD<sup>4</sup>) for CAP<sup>5</sup> Planning:***  
66

67 Background given by E. Toohey that this is to have a permanent hazardous waste center or  
68 Environmental Depot for the solid waste district, and they need funds for a CAP. There are  
69 vapor intrusion issues with sub-slab depressurization system needed. The quote by the  
70 environmental engineer was for \$8,400. P. Carbee made the motion to fund the CAP planning  
71 with funds not-to-exceed \$8,400, J. Shatney seconded. With discussion, P. Carbee noted he  
72 was at a solid waste district meeting and that the executive director mentioned funding  
73 everything needed to be done, and that the BRELLA program was out of funds, but the

---

<sup>3</sup> FEMA = Federal Emergency Management Agency

<sup>4</sup> CVSWMD = Central Vermont Solid Waste Management District

<sup>5</sup> CAP = Corrective Action Plan

74 VTDEC<sup>6</sup> will cover ongoing monitoring events. Both J. Shatney and E. Toohey stated they  
75 had not heard such a thing, and E. Toohey said that we could cover the assessment funds.  
76 Voting occurred, ***motion carried.***  
77

78 **Program Updates:**  
79

80 • ***203 Country Club Rd, Montpelier***  
81

82 The project has been contracted with Stone Environmental for a Phase II  
83

84 • ***300-302 Granger Rd, Berlin***  
85

86 P. Carbee noted that the packet stated funding sought of \$9,500 in one place, and \$8,400 in  
87 another, and that the Committee had just authorized funding at \$8,400.  
88

89 • ***63 Sawmill Rd, Cabot***  
90

91 A Phase I was completed in August of 2024; that there will need to be a quitclaim deed to the  
92 Town of Cabot when the property transfer is done, but must be done within 6 months of the  
93 date of the report, which will be in February 2025 some time.  
94

95 • ***Former Shatney's Garage, Woodbury***  
96

97 With a realtor reaching out, E. Toohey went documentation and information about the  
98 Brownfields Committee and what can be done. E. Toohey believes that the aboveground  
99 storage tanks were removed after the sale of the property, not sure if there any remaining or  
100 known underground storage tanks. P Carbee noted this business has been around a long time.  
101

102 **Adjourn:** With no other items for the Committee, a motion was made by P. Carbee and seconded  
103 by R. Krauth to adjourn at 10:38 am, ***motion carried.***

<sup>6</sup> VTDEC means Vermont Department of Environmental Conservation

***As the Food and Nutrition Program Coordinator at Capstone Community Action, Emmanuelle Soumeilhan has been leading the way to better nutrition and food handling. She successfully fed 1600 families last year with an average of 800 to 900 visits to Capstone's food shelf each month.***

***She is responsible for all facets of the food shelf program and provides administrative support to the kitchen operations at Capstone and has single-handedly turned the program around to serve more local vegetables and meats while keeping a large supply of commodities, and ready to eat food for those who are not able to cook.***

***At Capstone Community Action, she started a volunteer program in the food shelf and now has a portfolio of 30 rotating volunteers from all walks of life- including people with disabilities and people who are fulfilling community service work. Overall, volunteers contribute an average of 225 hours per month to the food shelf.***

***Emmanuelle earned a Bachelor of Science from UVM with a focus on Animal and Food Science. She uses her knowledge in science in all her life's endeavors including feeding her family, gardening, composting, observing nature and reading scientific articles. Emmanuelle is an animal lover with 3 cats and 2 dogs who keep her life interesting and dynamic. She is also a master gardener and used to co-manage the North Branch Nature Center Community Garden in Montpelier.***

***Emmanuelle is a people lover and advocates for her community regularly at the state level. Last winter she volunteered twice a week at the overnight emergency shelter in Montpelier's Unitarian Church.***

***She holds the strong belief that if we work together today, we can solve a multitude of problems, including that of housing shortages and food insecurity.***

## UPDATED MEMO

Date: May 6, 2024  
To: Brownfields Advisory Committee  
From: Eli Toohey, Planner and Brownfield Program Manager  
Re: Brownfields Program

---

### **Program Update**

CVRPC has received another round of funding from ACCD. The available amount is up to \$99,000 for FY24.

#### **➤ Available Funding & Program Timeline**

- Another \$99,000 is available with a FY24 sub-grant agreement through Mount Ascutney Regional Commission (MARC), 9% can be for admin. Any additional funding over the \$99K will depend on whether other RPCs are using, or have the need for their allocated funding within their subgrant performance period. CVRPC Executive Committee approved signing the FY24 sub-grant agreement during their 11/4/24 meeting.
- Any unexpended or unencumbered as of June 30, 2025 will be returned to the State.
- Any underage for FY23 can be applied for admin for those projects. We do not anticipate any underage.
- Eligible use of funds:
  - to hire Qualified Environmental Professionals (QEPs). CVRPC will contract with QEPs to undertake assessment work, funds will not be granted to the property owner or prospective purchaser to undertake the work.
  - Cap of \$50,000 can be used on one site for FY22 and FY23, FY24 does not have this cap per site
  - for administrative services performed by the RPC. The maximum allowable reimbursement for these administrative services is 9% of the award. This is down from 10% during the last round.

### **Funding Status - FY22 and FY23**

| Project Name                     | Date of DEC Approval | Project Type | Funded Project Activity | BRELLA Status | QEP Company | Project Status           | QEP Contract Date | QEP Encumbered Amount (proposed/contracted) |
|----------------------------------|----------------------|--------------|-------------------------|---------------|-------------|--------------------------|-------------------|---------------------------------------------|

## Sites Update

### **119 School Road, Warren VT**

The current Town Garage in Warren is on a site that may be used for housing in the future, has an underground storage tank and is in need of a Phase I. They are not yet BRELLA enrolled but are in the process of applying.

### **173 South Main Street, Barre VT (SMS Site #2024-5426)**

The Quality Inn in Barre City has had a Phase I, Phase II and Phase II Supplemental have been completed. Contaminants were found during the Phase II (Phase I, Phase II - conducted in August-September 2024 are available upon request) that required a Supplemental Phase II EA. The project is BRELLA enrolled. The property is being purchased by Downstreet Housing and Community Development and is intended to be turned into 42 transitional units with 24/7 wraparound services. They had a cleanup funding gap of 133,640. State ACCD Brownfields program has funding available.

### **53 Granite Street, Barre VT (SMS Site #2024-5485)**

The old Dessureau Machine shop location at 53 Granite Street in Barre City requires a Phase I as part of their FEMA buyout process. This property is intended to be returned to the flood plain in support of flood mitigation efforts. The site is BRELLA enrolled. Phase I is in process.

### **57 Freight Yard Way, Northfield VT (SMS Site #TBD)**

This building is intended to be turned into 8-10 housing units. The building and parcel are not specifically listed as having contaminants, but it is within the Freight Yard Way section of Northfield where other remediation has been completed and contamination is suspected for this property. The site is currently applying for BRELLA. I haven't heard anything from them and have followed up via email and phone.

### **300-302 Granger Road (CVSWMD), Berlin, VT (SMS Site #2024-5431)**

The future site of CVSWMD's Administrative Offices and Eco Depot (permanent hazardous waste disposal center). CVRPC Brownfields has funded a Phase II, Phase II Supplemental, and CAP Planning. They need Cleanup funding and I have directed them to DEC Brownfields and ACCD Brownfields for Cleanup funding. ACCD has said they have funds to do so.

### **203 Country Club Road (SMS Site # 2022-5116)**

Stone Environmental did Phase II for 203 Country Club Road. Exceedances of heavy metals and other contaminants were found concentrated around the holes. A Phase II will likely be needed. The building was not tested and we suggested it be done. Phase II report can be shared by reaching out to Eli.

### **63 Sawmill Rd, Cabot (SMS Site #2018-4800)**

Site underwent a Phase I in August 2024. They have completed the transfer to the town of Cabot. Friends of the Winooski are project managing next steps.

| Brownfield Assessment Activities                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
