Responses to questions regarding RFP

1. **Question:** What does the following statement under Standards and Deliverables # 3 mean? *"All data, databases, reports, programs and materials, in digital and hard copy formats, created under this contract must become the property of CVRPC."*
1. **Response:** Everything created as part of the work under the contract whether in digital format (like files, software, spreadsheets) or hard copy (printed documents, physical materials), will legally belong to CVRPC once created. The selected contractor may not retain ownership or control over those items unless otherwise specified elsewhere in the contract. This also means that CVRPC can use, reproduce, share, or modify the materials freely, without seeking permission or paying additional fees.
