

Town of Fayston, VT

Emergency Watershed Program Request for Proposals – Engineering Services

Responses to questions regarding Request for Proposals

- 1. Question:** Is there a way to get a file that contains the plans in a full-size document? (Versus 8 ½ x 11)

Answer: Yes, contact the engineer at Stacey.Bryant@usda.gov for larger plan documents.

- 2. Question:** What is the engineering cost estimate?

Answer: The engineering cost estimate is \$30,809.50

- 3. Question:** What is the timeline for completion?

Answer: All project work is expected to be completed ninety (90) consecutive calendar days following a notice to proceed (see Contract Documents).

- 4. Question:** Are there bond requirements?

Answer: Yes, performance and payment bonds are required (see Contract Documents). However, the pre-bid bond requirement has been removed (see Addendum 1).

- 5. Question:** Is there a local disposal site for excavated material?

Answer: Yes, the town pit will be the local disposal site located at 1482 Sharpshooter Road, Fayston VT 05660.

- 6. Question:** Is there a second site?

Answer: No, the second site across the street has been removed (see Final Design documents).

- 7. Question:** Was the pre-bid meeting mandatory to submit a proposal?

Answer: No, the pre-bid meeting was not mandatory. For interested bidders who would like to visit the site, contact the Fayston Town Clerk at faystontc@madriver.com to access the property.

Full proposals due by 3:30 PM 12 August 2026
